SECTION 4: FIRST AID MEASURES

Contaminated individuals of chemical exposure must be taken for medical attention if any adverse effect occurs. Rescuers should be taken for medical attention, if necessary. Take copy of label and MSDS to health professional with contaminated individual.

EMERGENCY OVERVIEW: Material is grain fermentation liquid with a slightly acidic pH and potential ethanol content. May cause dermatitis in sensitive individuals.
**ROUTES OF ENTRY/FIRST AID:**

**EYES CONTACT:** Flush eyes with plenty of water for at least 15 minutes, occasionally lifting upper and lower eyelids. Remove contact lenses if present. Do not use an eye ointment. Consult a physician if irritation persists.

**SKIN CONTACT:** Wash contaminated area with soap and water. If irritation is present seek medical attention.

**INHALATION:** Remove victim to well ventilated area. In cases of inhalation of IDHL levels evacuate to safe location, loosen tight fitting clothing. If breathing is difficult administer oxygen. If victim is not breathing perform mouth to mouth resuscitation and seek medical attention.

**INGESTION:** Not a hazard unless ingested in such quantities as to interfere with normal digestion.
